Professional Summary

Experienced Java Developer with nearly a year of professional experience, possessing a strong foundation in programming principles and techniques, and specializing in Java development. I excel in problem-solving, demonstrating adeptness in tackling challenges and am committed to delivering high-quality solutions. Continuously enhancing my skills through ongoing learning and professional development.

Experience

Associate   Nov. 2022 – May. 2023
Subex ltd
- Experienced in using JDBC, JPA and Spring Boot to connect to Database and implement CRUD operation
- I have actively contributed to enhancing user experience by making improvements to the user interface (UI)
- Connected to Data Sources and performed operations using Spring Data framework features like Spring JDBC and Spring ORM.
- Implemented Spring MVC controllers like Controller, Simple Form Controller and Multi Action Controller.
- Utilized agile methodologies to drive efficient and timely software releases, working closely with development teams throughout the software development life cycle.
- Proficient in ORM (Object-Relational Mapping) concepts and practices.
- Implemented complex data access and manipulation operations using Hibernate Query Language (HQL)

Frontend Developer Intern   Sep. 2021 – Oct. 2021
EdFortunes
- Involved in designing the user experience interface UI/UX strategy, Ul requirements, converting findings into UI designs.
- Skilled in HTML and CSS, creating well-structured and visually appealing user interfaces.
- Proficient in TypeScript, utilizing its strong typing system and advanced features to develop clean and maintainable code.
- Solid understanding of Angular framework, including components, services, routing, and dependency injection.

Projects

Classification of Traffic Sign's using CNN
- Train and Test CNN model to predict traffic signs and classify them.
- Utilized sci-kit learn in python to simulate possible outcomes under different scenarios.

Auction DBMS
- The Web UI designed for an IPL Auction to Collect and Manage the Data from event Manipulate, Organizing and Handling player details in Database in a systematic manner.
- Utilized MySQL shell and MySQL workbench.

Technical Skills, Language Skills, and Interests

OS : Windows, Linux
Programming Languages : C#, Python, Java, JavaScript, HTML, CSS, TypeScript
Java/J2EE Skills : JSP, JDBC, MVC, XML, DOM
Frameworks : .NET, Angular, SpringBoot, Spring mvc, Spring Data, ORM Hibernate, Microservice's, Playwright
Version Contro : Git
Languages : Urdu (native), English, Kannada, Hind
Interests : Playing Cricket, Chess, Drawing, Painting, Singing

Certifications

CSharp : Introduction to C#
Angular : Angular - The Complete Guide (2023 Edition)
HTML, CSS3 : Build Responsive Real-World Websites with HTML and CSS
SpringBoot : Java and Spring Framework for Beginners with Spring Boot

Education

Ghousia College of Engineering   Ramanagara
BE. Computer Science and Engineering , CGPA : 7.5   *Aug. 2018 - May. 2022*

Cambridge PU College   Channapatna
PCMC's, Percentile: 75.2   *Sept. 2016 - Mar. 2018*
